

# This is our first autogenerated report

Here we collect data from Kimono Labs API and produce autogenerated minireport.

Here you can see activity on publishing news on [RIA Lenta](#).

## Other abilities

Use lists:

- Item 1
- Item 2
- etc.

Or multiple headers:

Level-4 header

Math is also possible:

$$EngagementRate = 100 \times \frac{likes+shares+comments}{Followers}(\%)$$

## Conclusion

Use R and have fun.
